Indicate subgroups: _____

Effectiveness:

Give a brief description of evidence you have that demonstrates effectiveness of your program/services. (This will be shared with parents).

The New Century instructional program is designed to diagnose student's academic strengths and weaknesses and provide individualized instruction to advance students to grade level proficiency. Results independently documented and shared by school clients support the effectiveness of the program as an intervention strategy to improve scores on state and standardized tests. Data obtained from client districts and controlled studies conducted by independent researchers show that students who receive New Century instruction achieve mean gains on third party assessments that exceed the results of students who do not receive New Century instruction.
